LASIK
Quality, Choice, and Savings

LASIK can provide freedom for most individuals who use corrective glasses or contact lenses. Since 1995, more than 22 million LASIK procedures have been performed in the U.S. to correct near-sightedness, far-sightedness and astigmatism.* There is even a procedure to correct presbyopia, the natural loss of ability to focus our eyes as we age, called Monovision LASIK. This procedure corrects one eye for distance and the other eye for reading.

The cost of Traditional LASIK is \$945 per eye, and the cost of Custom Bladeless LASIK is \$1,795 per eye. These are the total costs – there are no hidden extra fees.
